*There are no content exams for District Administrator: Director of Career and Technical Education and District Administrator: Director of Exceptional Needs. Thus, there are no pass rates noted.

Note: Passing the content exam is a requirement for licensure, not program completion. Unless a program requires an attempt on the content exam, completers may delay test taking until they are ready to pursue licensure. e.g. 2020-2021 Superintendent program completers who received an EdS degree are continuing work towards a PhD.
